Services: In response to the need for expanded and enhanced trauma-informed and trauma-focused treatment for children and their families in Montgomery County, CCTC has expanded several of their programs into Montgomery County: Trauma Services, Family-Based Services, Outpatient Services, and Blended Case Management. The Trauma Services Program provides specialized trauma-focused treatment to children ages 18 months – 18 years who have recently witnessed or experienced a traumatic event or who have been the victim of sexual abuse/assault. The Family Based Program offers team-delivered, short-term intensive services in the home and community. This specialized program enables families to care for children with emotional and behavioral health challenges, thus reducing the need for out-of-home placement. This Outpatient Program offers a range of interventions that allow children and their families to learn ways to manage their behavior, understand their emotions, and more effectively communicate in their home, school, and community. The Blended Case Management Program works intensively with families to connect them to various resources within their community.

▼Nurse-Family Partnership Montgomery County: Nurse-Family Partnership empowers first-time moms to transform their lives and create better futures for themselves and their babies. Educated nurses regularly visit young, first-time moms-to-be, starting early in the pregnancy and continuing through the child's second birthday.

The expectant moms benefit by getting the care and support they need to have a healthy pregnancy. At the same time, new mothers develop a close relationship with a nurse who becomes a trusted resource they can rely on for advice on everything from safely caring for their child to taking steps to provide a stable, secure future for them both. Through the partnership, the nurse provides new moms with the confidence and the tools they need not only to assure a healthy start for their babies, but to envision a life of stability and opportunities for success for both mom and child.

▼Cribs for Kids - Montgomery County - The mission of **Cribs for Kids®** is to prevent infant sleep-related deaths by educating parents and caregivers on the importance of practicing safe sleep for their babies. At this time, Cribs for Kids does not receive funding through a grant. Therefore, we are 100% funded by donations from individuals and organizations as well as fundraising efforts.

The corporation currently operates in 12 states, managing and overseeing more than 160 programs. In 1970, RHD sought to give birth to a new kind of agency that would have the capacity to respond to a wide range of individual and community challenges. It would be an organization whose values would guide it to focus on developing a highly decentralized organization with the broadest possible service mission. From one program, two employees and a budget of \$50,000, RHD has grown into a \$200-plus million corporation that employs more than 5,000 people across the country and serves tens of thousands of people in need each year. RHD's mission is to provide caring, effective, and innovative services that empower people of all abilities as they work to achieve the highest level of independence possible and build better lives for themselves, their families, and their communities. RHD's goals are to provide high quality, trauma-informed, effective, and outcome-driven services using evidence-based practices and the latest technology.
