Services: In response to the need for expanded and enhanced trauma-informed and trauma-focused treatment for children and their families in Montgomery County, CCTC has expanded several of their programs into Montgomery County: Trauma Services, Family-Based Services, Outpatient Services, and Blended Case Management. The Trauma Services Program provides specialized trauma-focused treatment to children ages 18 months – 18 years who have recently witnessed or experienced a traumatic event or who have been the victim of sexual abuse/assault. The Family Based Program offers team-delivered, short-term intensive services in the home and community. This specialized program enables families to care for children with emotional and behavioral health challenges, thus reducing the need for out-of-home placement. This Outpatient Program offers a range of interventions that allow children and their families to learn ways to manage their behavior, understand their emotions, and more effectively communicate in their home, school, and community. The Blended Case Management Program works intensively with families to connect them to various resources within their community.

SERVICES:

▼ Home Buying Program

Bringing people together to build homes, communities, and hope.

Habitat for Humanity of Montgomery and Delaware Counties sells newly constructed or renovated homes to qualified families and individuals who live or work in Montgomery or Delaware Counties and meet the program qualifications. Our homebuyers purchase their homes with affordable mortgages and pay taxes on the full values of their homes.

▼ Almost Home Program

We receive hundreds of applications for our [Home Buying](#) and [Home Repair](#) programs, but often families are not yet financially stable enough to qualify. Habitat MontDelco's Almost Home program aims to help families across Montgomery and Delaware County become financially stable. Almost Home focuses on overall behavior change and helps families set goals, learn skills, and change financial behaviors. We establish a supportive class environment in which families motivate each other and hold each other accountable.

▼ Home Repair Program

Habitat MontDelco's Home Repair Program provides low-cost home repairs to residents of Montgomery and Delaware Counties. Repairs must address needs in a home that threaten health, safety, security and/or accessibility. Habitat MontDelco's program prioritizes low-income elderly, disabled, and veteran homeowners who are struggling to maintain their homes.

Through this program, Habitat MontDelco aims to stabilize communities, address Montgomery and Delaware Counties' aging housing stock, and prevent low-income homeowners from being displaced.

▼ Neighborhood Revitalization

The Neighborhood Revitalization (NR) program works holistically with communities to identify local assets and goals, stabilize neighborhoods, and improve residents' safety and quality of life. It starts with physical home repairs for neighborhood homeowners and on blighted properties and continues with partnerships planning and program development.

Services: Lakeside has been providing services, for over 60 years, to children, families, and communities that have faced many forms of adversity. Based in Montgomery County, Lakeside currently operates four schools that provide educational, clinical, and behavioral management services for students who are being referred by regional school districts that have identified these students to be in need of specialized emotional and educational support. Lakeside also provides in-school counseling to most of our regional schools and a mobile support program which offers tutoring and counseling to students on-site in our community. All of Lakeside's programs are trauma-informed in their philosophy and therapeutic interventions. Annually, Lakeside impacts over 3,500 students residing in 45 school districts that are located in seven Pennsylvania counties. ▼ Lakeside's seasoned capacity and successes in trauma-informed care for students have led to many requests for training for professionals, schools, systems of care, and organizations. To respond to this need, Lakeside has designed specific training and coaching for schools, trauma workshops for professionals, trauma competent intensive training, which leads to certification and organizational trauma responsive training and certification. Lakeside has also worked in higher education to help regional universities offer trauma education to students and staff. Lakeside has trained hundreds of schools and organizations, over 50,000 professionals and currently provides training in 65 of the 67 counties within Pennsylvania.

(RHD) is now in its 50th year of operations, currently supporting and serving individuals and families who have behavioral health issues and/or intellectual disabilities, are homeless or in unstable living situations, or in need of primary health care. The corporation currently operates in 12 states, managing and overseeing more than 160 programs. In 1970, RHD sought to give

birth to a new kind of agency that would have the capacity to respond to a wide range of individual and community challenges. It would be an organization whose values would guide it to focus on developing a highly decentralized organization with the broadest possible service mission. From one program, two employees and a budget of \$50,000, RHD has grown into a \$200-plus million corporation that employs more than 5,000 people across the country and serves tens of thousands of people in need each year. RHD's mission is to provide caring, effective, and innovative services that empower people of all abilities as they work to achieve the highest level of independence possible and build better lives for themselves, their families, and their communities. RHD's goals are to provide high quality, trauma-informed, effective, and outcome-driven services using evidence-based practices and the latest technology.
